

Traceability to Plantations

Facility: Pacific Oils & Fats Industries Sdn Bhd (Pacoil)

Period: 2022

Pacific Oils & Fats Industries Sdn Bhd is 86.76% traceable to plantation.

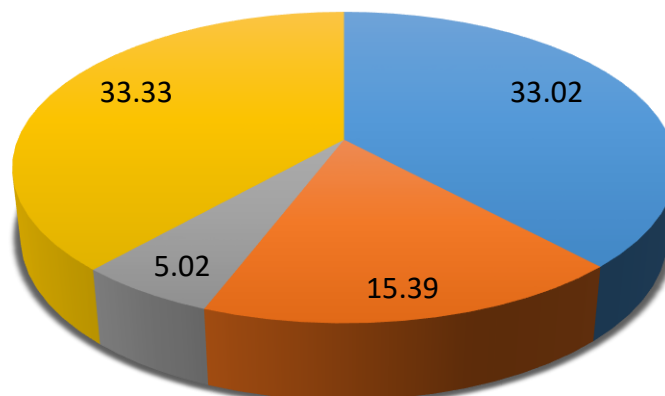

Sources of fresh fruit bunches (FFB) supplied to the mills, which in turn supply crude palm Oil (CPO) to Pacoil is made up of:

- I. Estates – estates owned by the mills and third-party estates
- II. Smallholders – supplies FFB directly to our supplying mills
- III. Dealers – who source FFB from various origins

In 2022, 4.65% of our supplying mills sourced FFB from their own plantations only, while 27.91% of mills sourced FFB from third party plantations only. Remaining 67.44% of mill sourced from both own and third party plantations. Third party plantation refers to various sources such as independent plantations, smallholders and dealers.

In terms of volume of FFB traceable, 33.02% was sourced from mill's own plantation, 15.39% from third party plantations, 5.02% from smallholders and 33.33% from dealers.

Traceability to Plantation (%)

■ Own plantations ■ Third party plantations ■ Smallholders ■ Dealers
